Track Events – 100m(H/F), 400m, 1500m, 3000m, 200/300/400m Hurdles

Field Events – Long Jump, Discus Throw, Shot Put

Facility Layout

The Terry Fox Athletic Facility has a very strict policy pertaining to a 100-person capacity. Officials, staff, meet volunteers are separate.

When not competing all athletes/coaches/officials/volunteers/staff are asked to wear a mask.

Our schedules will be broken up into blocks that allow athletes to enter and exit the facility in a staggered manner (example 6:00pm/7:00pm/8:00pm). Athletes are asked to leave the facility when their event is complete. If an athlete will be competing again, they will be asked to re-enter the facility during that event block.

It is the upmost importance for all participants to respect the physical distancing regulations that have been put in place by the public health officials. The facility maps below indicate the warm-up and training areas to be used and store their gear.

All individuals entering the facility must complete a health questionnaire found [HERE](#). Please complete prior to arrival to avoid holding up the line.

All athletes, coaches, volunteers and officials must enter the facility at the North entrance (facing Riverside drive). It is here that meet organizers will confirm registration and that the event health questionnaire has been completed and passed prior to entry.

All athletes, coaches, volunteers and officials must exit using the main gaits located behind the timing tower.

Under the scenario of severe weather (lightning, tornado warning) participants will be asked to take shelter in their vehicles as indoor facilities are limited in both availability and capacity while respecting physical distancing.

Hand sanitizer will be provided at the entrance and exit of the facility.

Warm-up Areas

- Refer to page 5
- 10 per area (athletes & coaches combined).
- Athletes are asked to stay within these areas for the entirety of their warm-up.
- Track Warm-up area 3 can be shared between Area 1 & 2 as long as the capacity of 10 is followed.
- Track warm-up areas 4 & 5 can use the back stretch of the track as long as it does not interfere with an event taking place and physical distancing is maintained.
- Once done competing athletes will be expected to depart from the facility to allow for the next group of athletes enter and begin their warm-ups.
- Throws Warm-up area 1 & 2 may alternate depending on the events that are being contested. Example (If Javelin is being contested, athletes are asked to warm up in the discus/hammer area).
- Jumps Warm-up area 1 & 2 may alternate depending on the events that are being contested. Example (If a Long Jump competition is being contested, athletes not competing are asked to warm-up on the high jump apron).

Competition Area's

- Refer to page 5
- Maximum of 10 permitted in each area (athletes and coaches combined).
- A coaching area will be created to not interfere with the area capacity.
- With typical track etiquette we ask athletes respect the competitive areas and to not interfere with them as an event is taking place.
- Athletes are asked to clear the competitive area as soon as possible when done competing.
- We ask that athletes do not linger in the facility as we will need sufficient space for athletes competing in the latter part of the evening.

Track

- Four athletes per heat. Every other lane will be used for all events 100m up to 400m (including hurdles).
- All sprint events (100m, 200m, 80mH/100mH/110mH) will have heats and finals. If numbers permit an A & B final could be held.
- 800m will start in every other lane at the 4x400m start with a 3 turn stagger.
- 1500m will start in every other lane at the 300m start lines.
- Mile-5000m will start with tier waterfall.
- Athletes are to avoid drafting.
- If passing another athlete, you will be expected to give a wide berth.
- The red boxes shown on the facility map will serve as the assembly areas for the heat that is “on deck” and the heat that will be “in the hole” based on the events respective start line.

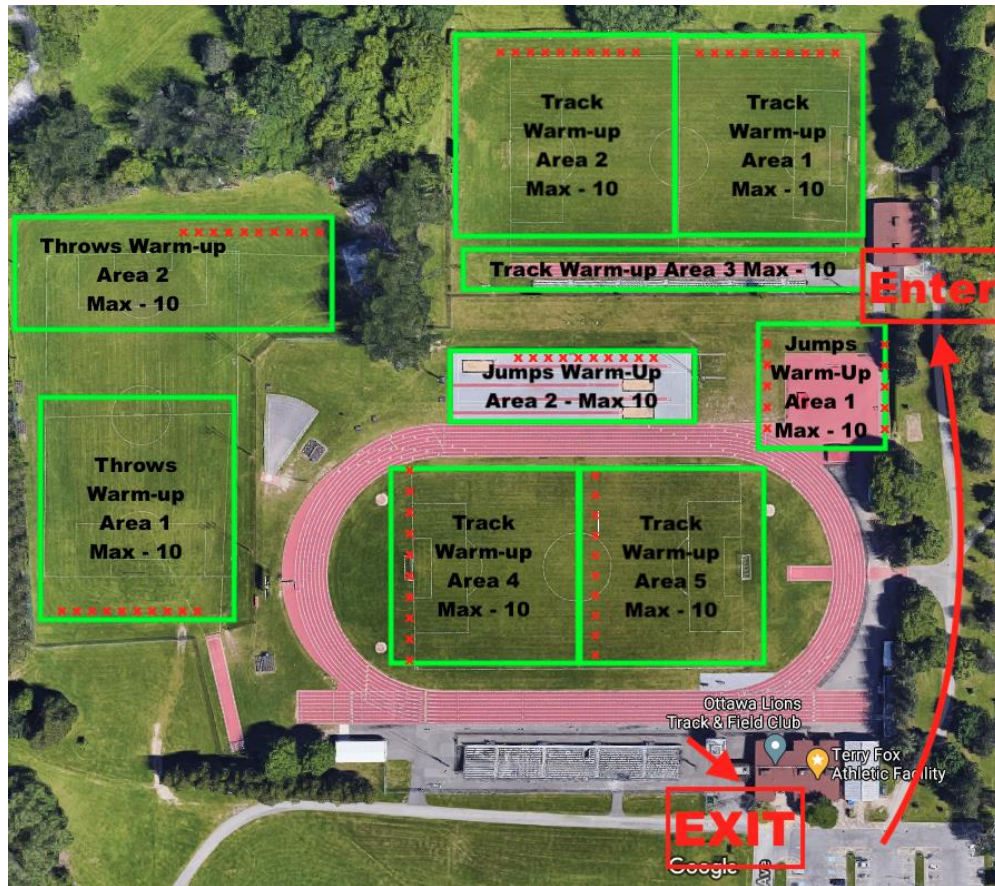

Jumps

- Long Jump & Triple Jump
 - 8 per flight.
 - Athletes are to spread themselves out by a minimum of 6ft when not jumping.
- High Jump
 - 8 per flight with officials and volunteers included in the area capacity.
 - Athletes must have their own personal tarp that is to be placed on the mat prior to their attempt and when their attempt is completed.

Throws

- Maximum of 8 throwers per flight with officials and volunteers included in the area capacity,
- Throwers will have their own implements. Requests must be made well in advance if you wish to use Ottawa Lions equipment as only a limited number of implements will be available.
- Throwers must retrieve their own implements.

Coronavirus Disease 2019 (COVID-19)

Cleaning and Disinfection for Public Settings

This document provides guidance on cleaning and disinfection of public settings, including schools, transit, colleges/universities and other workplaces in Ontario. For more information, please contact your local public health unit.

What you should know

- Commonly used cleaners and disinfectants are effective against COVID-19.
- Frequently touched surfaces are most likely to be contaminated.
- Use only disinfectants that have a Drug Identification Number (DIN). A DIN is an 8-digit number given by Health Canada that confirms it is approved for use in Canada.
- Check the expiry date of products you use and always follow manufacturer's instructions.

Clean frequently touched surfaces twice per day

- In addition to routine cleaning, surfaces that have frequent contact with hands should be cleaned and disinfected twice per day and when visibly dirty.
- Examples include doorknobs, elevator buttons, light switches, toilet handles, counters, hand rails, touch screen surfaces and keypads.
- In addition to routine cleaning, check with your organization for any specific protocols for cleaning for COVID-19.

Cover Your Cough

1. Cover your mouth and nose when you cough, sneeze or blow your nose.

2. Put used tissue in the garbage.

3. If you don't have a tissue, cough or sneeze into your sleeve, not in your hands.

4. Clean your hands with soap and water or hand sanitizer (minimum 70% alcohol-based).

Stop the Spread of Germs

Always Cover Your Cough

- Covering your cough or sneeze can stop the spread of germs
- If you don't have a tissue, cough or sneeze into your sleeve
- Keep your distance (more than 2 metres/6 feet) from people who are coughing or sneezing

Ottawa's health is in **your hands**

Proper **handwashing** helps prevent the spread of germs!

La santé d'Ottawa est entre **VOS mains**

Il est **se laver les mains** aide à prévenir la propagation des germes!

Resources

We encourage our members to continue monitoring their health and those close to them. Keeping a mindful eye on the announcements and status updates released by the province of Ontario, City of Ottawa, and Public Health Officials as the scenario continues to develop day by day.

These recommendations will be closely followed by the Club and will not hesitate if there is a danger in our members health and wellbeing.

Here are some helpful resources to follow as we continue to navigate through the world wide pandemic.
